Re: Annual Report Response, Desert #28, S/053/037, Washington County, Utah

Dear Mr. Doyle:

Thank you for submitting your letter received in this office January 27, 1994, which states that you are no longer connected with Desert Mining Company. Your letter infers that the corporation dropped their interest in the mining claims associated with this project. However, it is unclear if there were any mining disturbances created by Desert Mining Company that will require reclamation. Consequently, your letter does not satisfy the Mined Land Reclamation rules for submittal of the annual report for the Desert #28 mine.

We are returning the annual report form (MR-AR) to you and ask that you, or other appropriate person/party, please complete it regarding the work that has been performed by Desert Mining Company at the mine site. If no mining-related disturbances exist that will require reclamation, then please indicate this on the form and complete only those other sections that may apply.

Before we can formally release Desert Mining Company from any further reclamation responsibility, we will need to have confirmation that all appropriate reclamation has been performed, or proceed with a formal transfer of the existing permit to another party. Would you please complete and return the annual report, or let us know who we should contact to resolve this issue?

Your help and cooperation in this matter is greatly appreciated.

Sincerely,

D. Wayne Hedberg
Permit Supervisor
Minerals Regulatory Program
